

Publications on the Microbial Safety of Onions

To report or cite, please use the following citation: Harris, L. J., and S. Yada. 2024. Publications on the microbial safety of onions [Bibliography]. Available at: <https://ucfoodsafety.ucdavis.edu/produce-pre-post-harvest/commodity-specific-food-safety-information>.

OUTBREAK REPORTS

- Centers for Disease Control and Prevention. 2015. 2015 *E. coli* outbreak linked to Costco rotisserie chicken salad. https://archive.cdc.gov/www_cdc_gov/ecoli/2015/o157h7-11-15/index.html [source uncertain, but diced celery-onion blend used in chicken salad was recalled]
- Centers for Disease Control and Prevention. 2016. 2016 outbreak of *Listeria* infections linked to frozen vegetables. <https://archive.cdc.gov/#/details?url=https://www.cdc.gov/listeria/outbreaks/frozen-vegetables-05-16/index.html> [multiple products; investigation led to secondary recall of wholesale onions]
- Centers for Disease Control and Prevention. 2020. 2020 *Salmonella* outbreak linked to onions (final update). <https://archive.cdc.gov/#/details?url=https://www.cdc.gov/salmonella/newport-07-20/index.html>
- Centers for Disease Control and Prevention. 2021. 2021 *Salmonella* outbreak linked to onions. <https://archive.cdc.gov/#/details?url=https://www.cdc.gov/salmonella/oranienburg-09-21/index.html>
- Centers for Disease Control and Prevention. 2023. *Salmonella* outbreak linked to fresh diced onions, October 2023. Available (10/28/24): https://www.cdc.gov/salmonella/outbreaks/onions-10-23/?CDC_AAref_Val=https://www.cdc.gov/salmonella/thompson-10-23/index.html.
- Centers for Disease Control and Prevention. 2024. *E. coli* outbreak linked to McDonald's Quarter Pounders. Available (10/23/24): <https://www.cdc.gov/ecoli/outbreaks/e-coli-O157.html>. [investigation underway to determine if slivered onions are likely source of contamination]
- MacDonald, K. L., R. F. Spengler, C. L. Hatheway, N. T. Hargrett, and M. L. Cohen. 1985. Type A botulism from sautéed onions: clinical and epidemiological observations. *JAMA* 253:1275–1278. <https://doi.org/10.1001/jama.1985.03350330073025>
- Mitchell Jr., M. R., M. Kirchner, B. Schneider, M. McClure, K. P. Neil, A. Madad, T. Jemaneh, M. Tijerina, K. Nolte, A. Wellman, and D. Neises. 2024. Multistate outbreak of *Salmonella* Oranienburg infections linked to bulb onions imported from Mexico – United States, 2021. *Food Control* 160:110325. <https://doi.org/10.1016/j.foodcont.2024.110325>.
- North Bay Parry Sound District Health Unit. 2009. Investigative summary of the *Escherichia coli* outbreak associated with a restaurant in North Bay, Ontario: October to November 2008. Available (10/23/2024): <https://www.myhealthunit.ca/en/community-data-and-reports/resources/Reports-Statistics--Geographic-Profiles/Environmental-health/InvestigativeSummaryoftheE.coliOutbreak-June-2009.pdf>.
- Public Health Agency of Canada. 2020. Public health notice: Outbreak of *Salmonella* infections linked to red onions imported from the United States. (October 1, 2020 – final update). Available (10/23/24): <https://www.canada.ca/en/public-health/services/public-health-notices/2020/outbreak-salmonella-infections-under-investigation.html>.

- U.S. Food and Drug Administration. 2016. FDA investigated *Listeria* outbreak linked to frozen vegetables. <https://wayback.archive-it.org/3818/20180507195224/https://www.fda.gov/Food/RecallsOutbreaksEmergencies/Outbreaks/ucm499157.htm>
- U.S. Food and Drug Administration. 2020. Outbreak investigation of *Salmonella* Newport: Red onions (July 2020). Available (10/23/24): <https://www.fda.gov/food/outbreaks-foodborne-illness/outbreak-investigation-salmonella-newport-red-onions-july-2020>.
- U.S. Food and Drug Administration. 2021. Factors potentially contributing to the contamination of red onions implicated in the summer 2020 outbreak of *Salmonella* Newport. Available (10/23/24): <https://www.fda.gov/food/foodborne-pathogens/factors-potentially-contributing-contamination-red-onions-implicated-summer-2020-outbreak-salmonella>.
- U.S. Food and Drug Administration. 2023. Outbreak investigation of *Salmonella*: Onions (October 2023). Available (10/28/24): <https://www.fda.gov/food/outbreaks-foodborne-illness/outbreak-investigation-salmonella-onions-october-2023#:~:text=Additional%20Images-Product,CDC%20declares%20the%20outbreak%20over>. [diced onions]
- U.S. Food and Drug Administration. 2024. Outbreak investigation of *E. coli* O157:H7: McDonald's Quarter Pounders (October 2024). Available (10/23/24): https://www.fda.gov/food/outbreaks-foodborne-illness/outbreak-investigation-e-coli-o157h7-mcdonalds-quarter-pounders-october-2024?utm_medium=email&utm_source=govdelivery. [investigation underway to determine if slivered onions are likely source of contamination]

RECALLS

- Beach, C. 2016. Updated: Frozen vegetables recalled because of *Listeria*. *Food Safety News*, 12 April. Available (10/23/24): <https://www.foodsafetynews.com/2016/04/frozen-vegetables-recalled-onions-in-them-could-carry-listeria/>.
- Beach, C. 2024. US Foods reports Taylor Farms has issued a recall of whole and diced raw onions. *Food Safety News*, October 23. Available (10/28/24): <https://www.foodsafetynews.com/2024/10/us-foods-reports-taylor-farms-has-issued-a-recall-of-whole-and-diced-raw-onions/>.
